AIRMAR TECHNOLOGY ACQUIRED BY AMPHENOL CORPORATION

FOR IMMEDIATE RELEASE: MILFORD, NH. (January 29, 2024) – [AIRMAR® Technology Corporation](#), a world leader in ultrasonic transducers and Chirp technology, is pleased to announce its purchase by Amphenol Corporation (NYSE: APH). Amphenol, one of the world's largest providers of high-technology interconnect, sensor and antenna solutions, is headquartered in Wallingford, Connecticut, USA. Airmar is now part of the Amphenol Interconnect and Sensor Systems Division, joining several other sensor and interconnect businesses, and will continue to retain its headquarters location in Milford, New Hampshire.

Airmar's global team of highly experienced scientists, designers, engineers and technicians, as well as a vertically integrated business model, has delivered four decades of innovation and product development. "Amphenol has a strong focus on innovation and growth, which matches Airmar's culture. Being a part of the Amphenol family means Airmar and other Amphenol businesses will benefit from sharing technology and expertise. We look forward to future collaboration," stated Steve Boucher, General Manager and founder of Airmar.

"We are thrilled to have Airmar join Amphenol. The Airmar leadership team, their technology and their leadership in the marine market are a great addition to our well-diversified sensor portfolio," stated Peter Straub, President of Amphenol's Interconnect and Sensor Systems Division.

Since 1982, Airmar has developed and manufactured transducers for a diverse range of applications, including air-ranging industrial transducers, underwater scientific and survey transducers, weather sensing instruments, and an extensive line of marine transducers, headlined by the latest Chirp-ready products. The company consists of Airmar Technology, Marport, MSI Transducers, and Gemeco.

About AIRMAR

AIRMAR® Technology Corporation is a world leader in the design and manufacture of high-performance sensors for marine and industrial applications. We manufacture advanced ultrasonic transducers, electromagnetic flow sensors, WeatherStation® instruments, and sensor monitoring systems used for a wide variety of applications. Recreational marine, commercial fishing, meteorology, ocean survey, process control, and proximity sensing are just some of our markets. Established in 1982, AIRMAR's headquarters are located in Milford, New Hampshire with 11 sales and tech support offices in 7 countries. Visit the Company's website at www.airmar.com.

About Amphenol

Amphenol Corporation is one of the world's largest designers, manufacturers and marketers of electrical, electronic and fiber optic connectors and interconnect systems, antennas, sensors and sensor-based products and coaxial and high-speed specialty cable. Amphenol designs, manufactures and assembles its products at facilities in approximately 40 countries around the world and sells its products through its own global sales force, independent representatives and a global network of electronics distributors. Amphenol has a diversified presence as a leader in high-growth areas of the interconnect market including: Automotive, Broadband Communications, Commercial Aerospace, Defense, Industrial, Information Technology and Data Communications, Mobile Devices and Mobile Networks.
